Stabilizer device for drawers

- To be fitted on both right and left sides of the drawer
- Cam adjustment to allow a perfect fit of the wheels to the cabinet sides
- It makes the function of the Push runners easier no matter where you push the drawer to open
- It improves the overall stability of the drawer by limiting side-to-side racking

Stabilisateur pour tiroirs

- A monter soit sur le côté droit, soit sur le côté gauche du tiroir
- Le réglage par excentrique permet un positionnement parfait des galets sur le côté du meuble
- Il facilite la fonction des coulisses Push, peu importe où vous poussez le tiroir pour l'ouvrir
- Améliore la stabilité générale du tiroir
