

## CONECTA – Concealed Hinge

### Conecta, the imperceptible hinge suitable for all applications

Invisibility and extreme versatility. Conecta is the totally innovative Salice hinge that remains completely hidden within the door and the side of the cabinet. Conecta ensures clean lines and a modern design to any type of cabinetry without sacrificing maximum technical functionality. Fixed to aluminium-framed glass doors, or with the door at the maximum opening, Conecta always remains virtually imperceptible.

Its technical characteristics allow it to manage the opening and closing movements with precision and fluidity even with large and heavy furniture doors in both wood and aluminium.

Its refined aesthetics, completed by customisable cover caps available for both the door and the side of the cabinet, combined with the high build quality, make the Conecta hinge suitable for applications with exceptional elegance and functionality.
