

FOLDER

THE SMART SYSTEM THAT OPTIMISES THE USE OF SPACE, WITH INNOVATIVE TECHNOLOGIES, REFINED STYLE AND FLEXIBILITY OF USE

The highly innovative FOLDER system by Salice has been developed in order to maximise the internal space within the cabinet structure. The cabinet doors can be fully retracted in order to ensure complete access to the internal drawers.

FOLDER is the integration of hinged doors with a sliding system that offers a soft and extremely smooth movement. The closing action as well as the opening phase is decelerated and offers a perception of maximum comfort.

This product is quick and easy to install thanks to the simplicity of its components. It is available for both the top and the bottom panel of the cabinet and can be assembled both on conventional and corner cabinets.

An elegant, functional and extremely versatile solution that can be designed for all rooms of the house according to the reliability and quality that distinguishes Salice.
