EXEDRA LIGHT - Pocket door system

This pocket door system elevates both versatility and design, featuring a distinctly modern and clean look. A truly versatile solution, it integrates perfectly into mulitple applications. A simple yet reliable mechanism that provides complete door retraction into the compartment. Installing and uninstalling made simple, requiring only a few easy steps.

Exedra Light suits all types of furniture and can be applied to a wide range of dimensions:
- door height from 700 mm to 1600 mm.
- door width from 300 mm to 650 mm.
- maximum usable depth 762 mm.
- door thickness from 16 mm to 25 mm.
- door weight up to 18 kg.

The Exedra Light system integrates seamlessly into multiple spaces, complementing a wide range of furniture, from kitchens, home offices to bar cabinets and laundry rooms. An innovation that is both stylish and effective combining aesthetics and practicality.

Two options available:
Out – Doors open independently from within the cabinet with assisted motion, activated by a light touch.
In – The doors retract with a smooth, perfectly balanced motion in response to a gentle push.

Exedra Light is supplied with Smove hinges for a decelerated closing, or with the dedicated release device for Push opening. Available in nickel-plated or titanium finishes. The door fully retracts into the compartment when open, ensuring practicality and discreetness. Each movement is assisted, resulting in a precise and harmonious sliding action. The concealed sliding mechanism, contained within a 55 or 58 mm housing, allows for easy adjustment and access without disassembling the cabinet. It attaches directly to the cabinet side in just a few simple steps.
