LUXURY

The Excessories collection reaches its zenith and distils all of its elegance into its most exalted embodiment which transforms the wardrobe to a luxury item.

Light, which enhances the beauty of the contents of the wardrobe, is a vital component here. Illuminated glass shelves that exhibit bags, clothes and hats like a fashion studio, hanger rails that beautify clothes, drawers with glass frontals, leather trays and shirt-holder trays, tie-holder trays and hanger rods with hook and leather sleeve. The interplay of lights and colours, lighter tones melted with those recalling earth and fire or English racing green, which make the wardrobe the most valued and desirable part of the home.
Leather as protagonist: hangers, tie and belt hangers, of varied combinations, define the wardrobe with vivid colour tones.

Customized combinations inside the wardrobe: an alternation of empty and full spaces, of precious fabrics and refined details.

Aluminium drawers with glass frontal and glass bottom. Fine materials which, together with the special attention to details visible between side and frontal, produce a unique and futuristic drawer.
