CASUAL

A fresh, light and day-to-day wardrobe.
Functional but totally sophisticated elements.
Hangers and hanger rods, made of wenge-dyed beech, drawers in coated aluminium in metal grey brown finish, and boxes in rich fabric are the key players.
Extractable coat hanging hooks, shoe racks and trousers hangers for drawers boast their high technical development.
The dark and light tones join in a complete and beautiful combination of colours, perfectly compatible with any kinds and finishes of wardrobes.

4-sided aluminium drawers: the technical elements hide completely behind a modern design. The distinctive shape of the profile, resembling a sinuous and soft wave, make them unique.

Simple and practical swivel hanger, to be fixed under the shelf and to be used in case of need.

Boxes in rich fabrics, available in different colours. Refined and saving-space products, enabling the total space organisation and colour coordination of wardrobes and walk-in closets.

HIGH-END

A multiplicity of elements and combinations, for a special and matchless walk-in closet.

The lightness and the elegant linearity of the 4-sided or glass-frontal alu-drawers are reflected in shoe-racks, tie-hangers, fabric trays and suit hangers which, with leather insert, present refined design.

The colours of the boxes, with bright and vivid tones, perfectly match the finishes of the trays.

A wardrobe with light and futuristic forms, freely modular: the 4-sided alu-drawers combined with the 3-sided drawers with glass frontal, where no technical element is visible, represent the symbol of technological innovation and most refined design.

Shoe-rack made of coated metal sheet, inserted into the drawer. An additional functionality for a complete walk-in closet.

Like trays, also drawer inserts act as containers. Of very high quality and aesthetics, they are available in wenge or walnut-dyed finish.

LUXURY

The Excessories collection reaches its zenith and distils all of its elegance into its most exalted embodiment which transforms the wardrobe to a luxury item.

Light, which enhances the beauty of the contents of the wardrobe, is a vital component here.

Illuminated glass shelves that exhibit bags, clothes and hats like a fashion studio, hanger rails that beautify clothes, drawers with glass frontals, leather trays and shirt-holder trays, tie-holder trays and hanger rods with hook and leather sleeve.

The interplay of lights and colours, lighter tones melted with those recalling earth and fire or English racing green, which make the wardrobe the most valued and desirable part of the home.

Leather as protagonist: hangers, tie and belt hangers, of varied combinations, define the wardrobe with vivid colour tones.

Customized combinations inside the wardrobe: an alternation of empty and full spaces, of precious fabrics and refined details.

Aluminium drawers with glass frontal and glass bottom. Fine materials which, together with the special attention to details visible between side and frontal, produce a unique and futuristic drawer.
