

Conecta

SALICE

Conecta • Concealed hinge

A perfect synthesis of compactness and adaptability. **Conecta** is the totally innovative Salice hinge that mounts recessed completely in the side panel.

Its technical features allow any wood or aluminum doors, even tall and heavy ones, to open and close smoothly.

The **Conecta** hinge, with its 94° opening, is fully adjustable in three directions by cam adjusters and is also available with an integrated soft close mechanism for decelerated closing.

Thanks to its aesthetics, elegance and functionality, **Conecta** is suitable for different applications. It is available in nickel-plated or titanium finishes and can come with customizable cover caps for both the cabinet door and side.

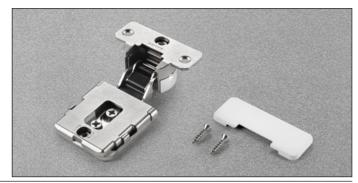

Conecta • Hinge for wood doors

Concealed CQA3JE hinge with recessed insertion in the side panel.

Door overlay 12,5 mm (1/2') using holder-sleeve DQG3B

Side adjustment -1 +2 mm Height adjustment -2,5 +2,5 mm Depth adjustment 0 +3 mm

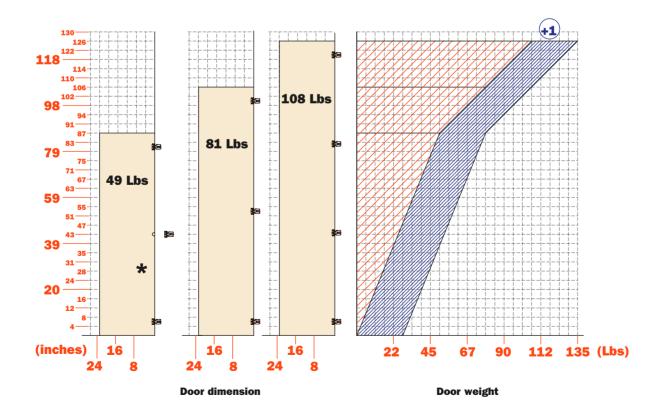

Concealed CQA3KE hinge with recessed insertion in the side panel

Door overlay 16,5 mm (5/8') using holder-sleeve DQG3B

Side adjustment -1 +2 mm Height adjustment -2,5 +2,5 mm Depth adjustment 0 +3 mm

Approx. number of hinges required according to the door dimension and weight

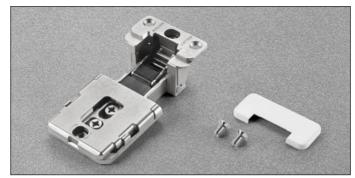

igspace* Adding one hinge in the center of the door increases its stability

Conecta • Hinge for aluminum-framed doors

Concealed CQZ3JE hinge with recessed insertion in the side panel.

Door overlay 12,5 mm (1/2') using holder-sleeve DQG3B

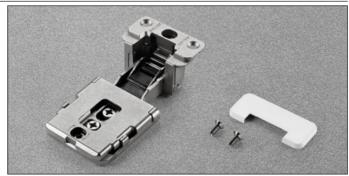

Side adjustment -2 +0,5 mm Height adjustment -2,5 +2,5 mm Depth adjustment 0 +3 mm

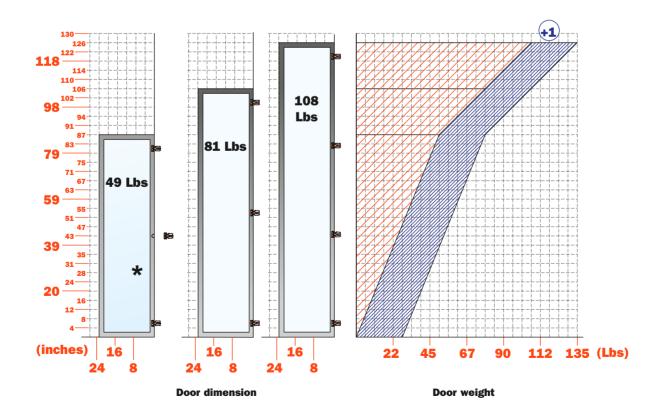

Concealed CQZ3KE hinge with recessed insertion in the side panel.

Conecta • Hinge for wood doors

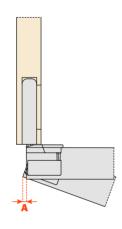

Technical features

Concealed Conecta CQA3JE hinge with recessed insertion in the side panel.

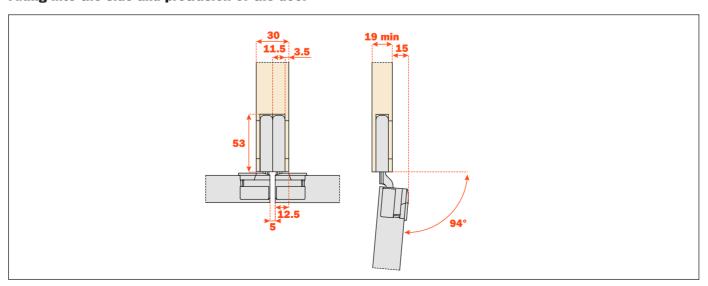

Rapid fastening of the door to the cabinet side 22 mm deep metal cup Drilling distance fixed at 10 mm from the edge of the door to the centre of the hole Diameter 35 mm $L=3.5\ \text{mm}$

94° opening 6-way adjustable

Space needed to open the door

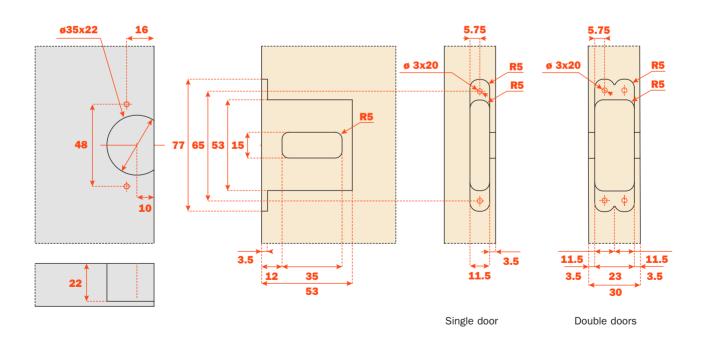

T=	25	26	27	28	29	30
A=	2.4	3.1	4.0	4.7	5.5	6.3

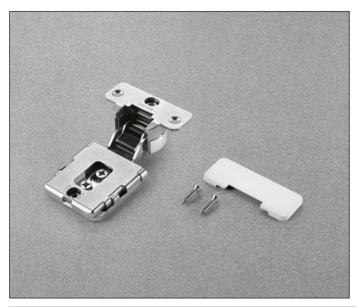

- For single door applications
- For double doors applications with 30 mm (1 5/16") side panel thickness
- Attaches to the side using $\emptyset 4x25 \text{ mm}$ screws
- Screws and cover caps included in packaging
