Internal equipment for wardrobes

ENG

## Excessories

*Details always make the difference*

- Aluminium-sided drawers with concealed technical elements and the possibility of integrating trouser racks, shoe racks and other accessories.
- Illuminated shelves with invisible integrated lighting that enhances garments and accessories, completed by contemporary-design hanger rails.
- Modular wardrobe system featuring essential design, premium materials and extensive customisation options.
- Imitation leather trays and accessory holders to organise watches, glasses, jewellery and small items elegantly and neatly.
- Versatile hanging solutions with customisable beechwood hangers and technical components such as extractable or swivelling elements with clean design.
- Coordinated fabric containers and breathable cotton garment bags to protect and maintain order inside the wardrobe.
- The online configurator allows you to assemble the elements of the Excessories collection quickly and easily.

## *Excessories*

*Store. Hang. Protect. Contain. Pull-out. Shelves.*

The Excessories collection interprets every function of the wardrobe and walk-in closet with a flexible and refined approach. Smart solutions and customizable components transform the space into an elegant and well-organised system.

Each element stands out for its essential design, carefully selected materials and premium finishes, achieving a perfect balance between aesthetics and functionality.

The drawers and illuminated shelves, emblematic of contemporary minimalism. They combine technological precision with formal beauty, enhancing every stored detail.

A wide range of finishes, textures and colour combinations allows maximum creative freedom and seamless integration with wardrobes of any structure or material.

## Excessories

### *Store*

Trays and accessory organisers designed to keep every detail perfectly arranged.

The range includes watch-holder trays, spectacle holders, ring holders, earring holders and space-saving modules, covered in imitation leather and available in various colours and sizes.

The trays, paired with imitation leather or fabric bottoms, create personalised compositions that transform each drawer into a refined and valuable element.

Compartmented bottoms also allow ties, belts and accessories to be stored in impeccable order.

### *Hang*

Versatile solutions for perfect garment management.

Hangers, cloth and bag hangers in beech wood can be customised with leather inserts.

Technical elements such as rods and extractable or rotating hanger supports also stand out for their clean design and high-quality materials, offering maximum practicality and visual coherence.

Every detail is designed to ensure elegance and everyday functionality.

## *Excessories*

### *Protect*

Height-adjustable fabric holder bags with gusset provide complete and breathable protection, even for bulkier garments.

Each detail is designed to ensure practicality and aesthetic continuity with the wardrobe's design.

### *Contain*

Fabric-covered boxes and trays, available in various dimensions and finishes, help maintain order and visual harmony, turning each element into a coordinated furnishing accessory.

Every detail is conceived to combine aesthetics and practicality in perfect continuity with the wardrobe's style.

## Excessories

### *Pull-out*

Excessories drawers represent the meeting point between design and technology.

Available in various versions and heights, with aluminium sides, they offer elegant and functional solutions.

The special machining of the profiles ensures impeccable aesthetics and simplifies cleaning and everyday use.

No technical component is visible; installation is quick, and compatibility is universal with wardrobes of all types.

The sides of the runners can be concealed by an aluminium cover to enhance aesthetics.

For an even more exclusive version, drawers with glass fronts reveal a perfect balance between transparency and solidity.

Inside, accessories such as trouser racks, skirt holders, shoe racks or laundry containers can be integrated.

Side spacers, designed for wardrobes with hinged or sliding doors, guarantee maximum drawer extraction freedom.

### *Shelves*

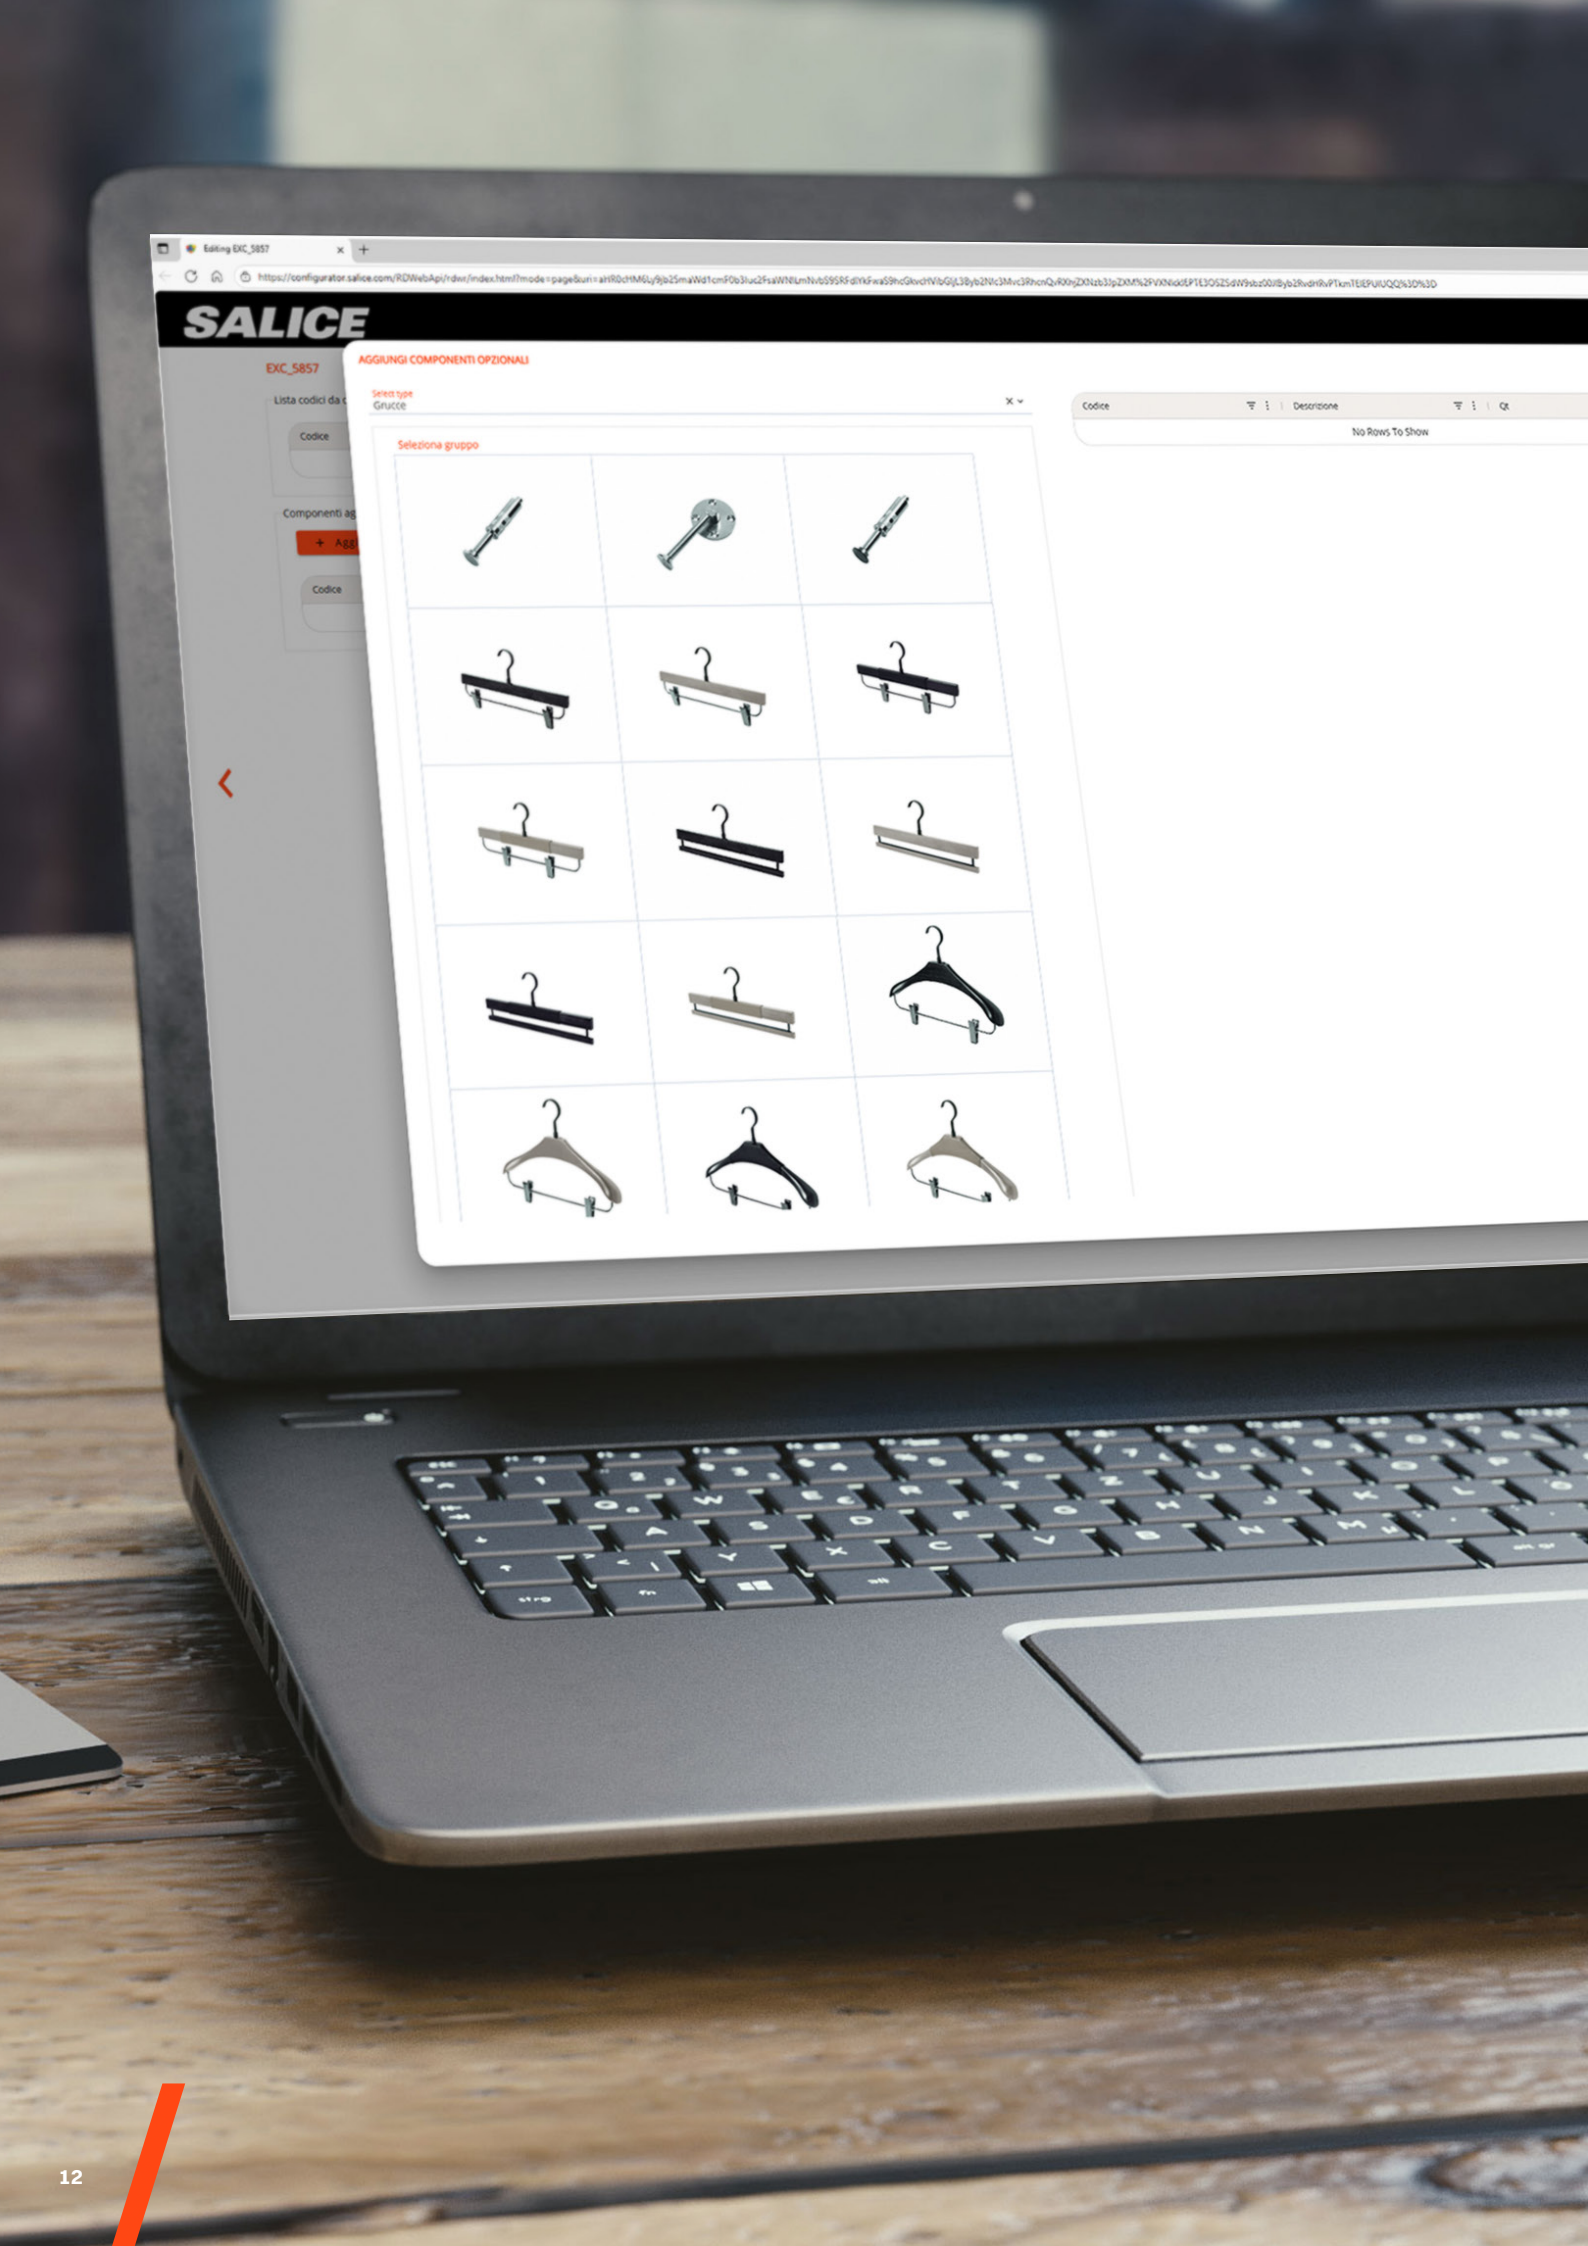

Light becomes the protagonist.

Illuminated shelves, with a fully concealed integrated lighting system, add depth and dynamism to the walk-in closet, enhancing each garment and accessory.

The clothes rail, together with the designer rail support, completes the composition with an essential and contemporary aesthetic.

## Configurator

### *Immediate configuration*

The online configurator allows you to assemble the elements of the Excessories collection quickly and easily.

### *Tailor-made solutions*

Customized dimensions and finishes for projects designed down to the finest detail.

### *Technical details*

The configurator generates the cabinet machining specifications and the details of the selected items.

500	528	540	540	547

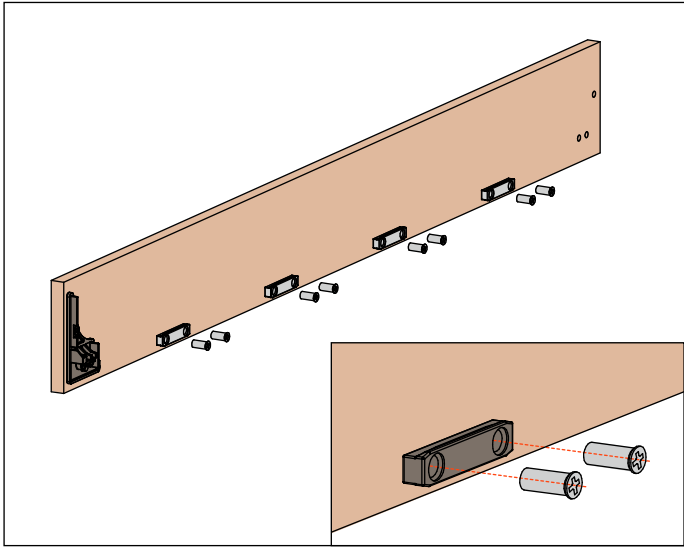

WOODEN FRONTAL

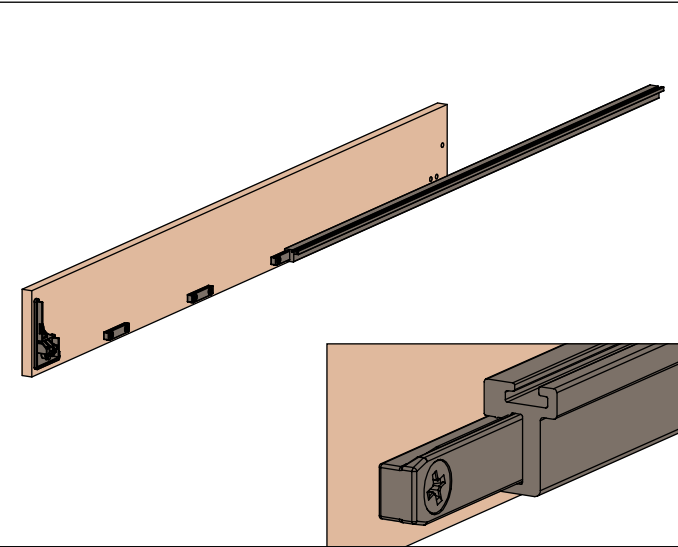

1. Screw the first cap to the frontal

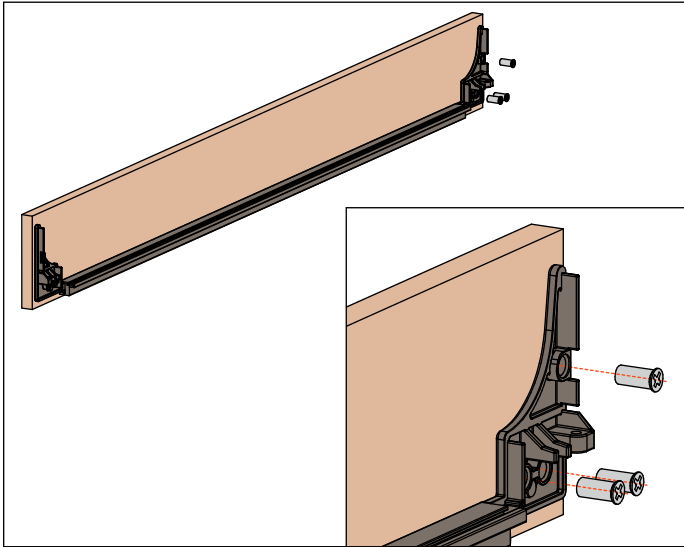

2. Screw the connecting elements to the frontal

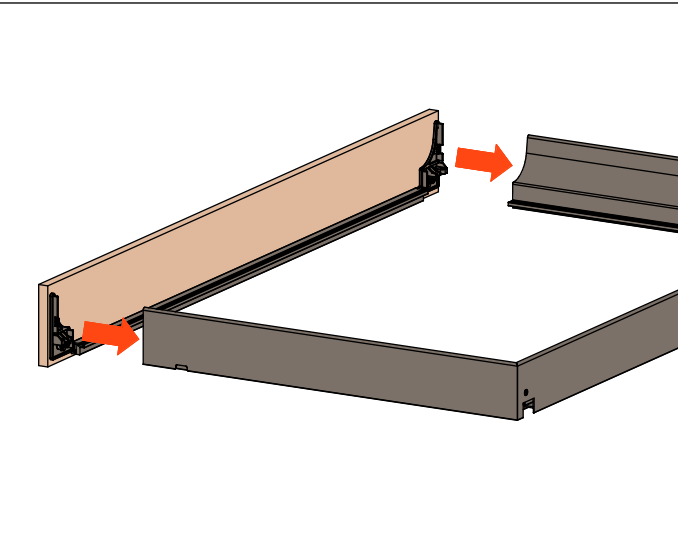

3. Insert and slide the front profile on the connecting elements

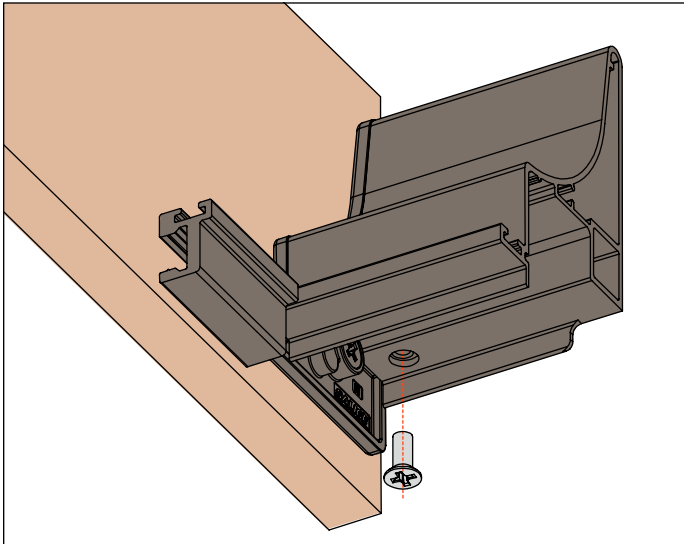

4. Screw the second cap to the frontal

5. Insert the caps in both sides

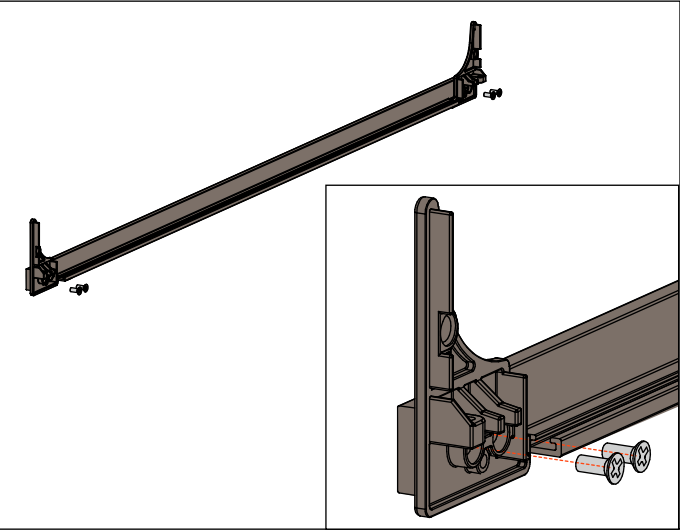

6. Fix the frontal to the drawer

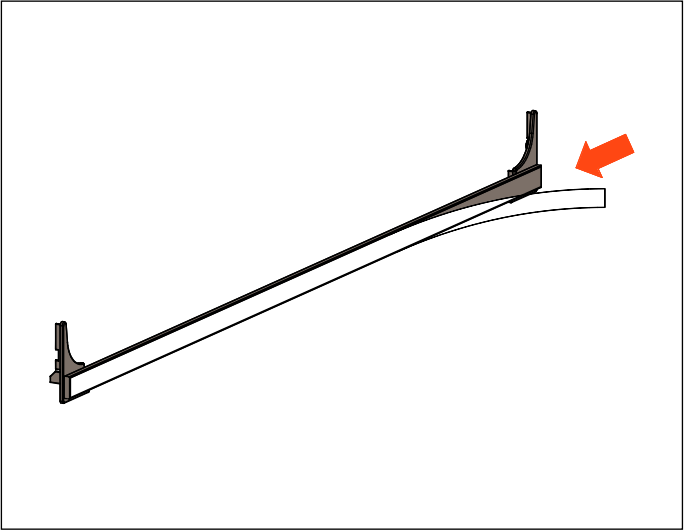

GLASS FRONTAL

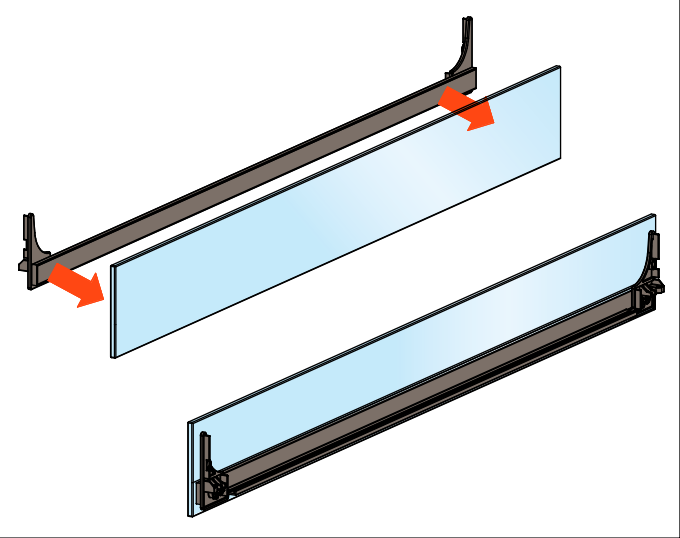

1. Screw the caps to the front profile

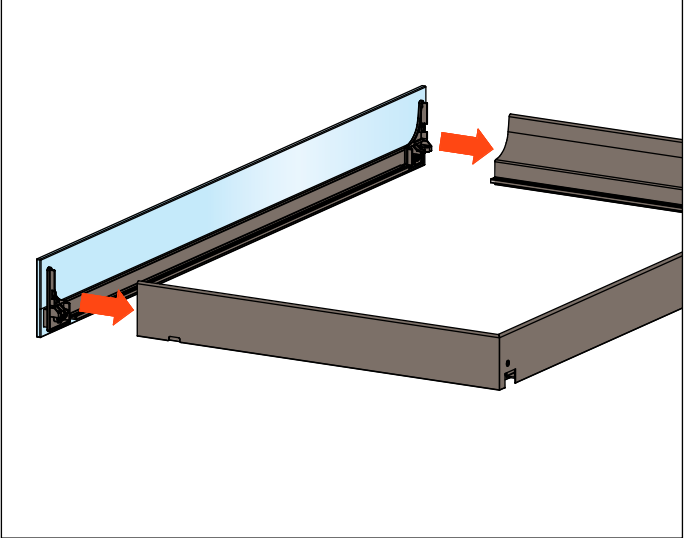

2. Remove the protective film from the adhesive tape that is pre-glued to the profile

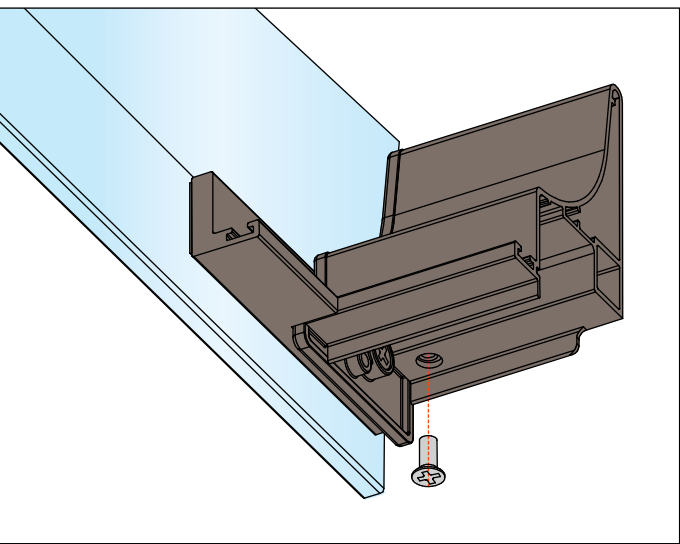

3. Press the profile firmly onto the glass

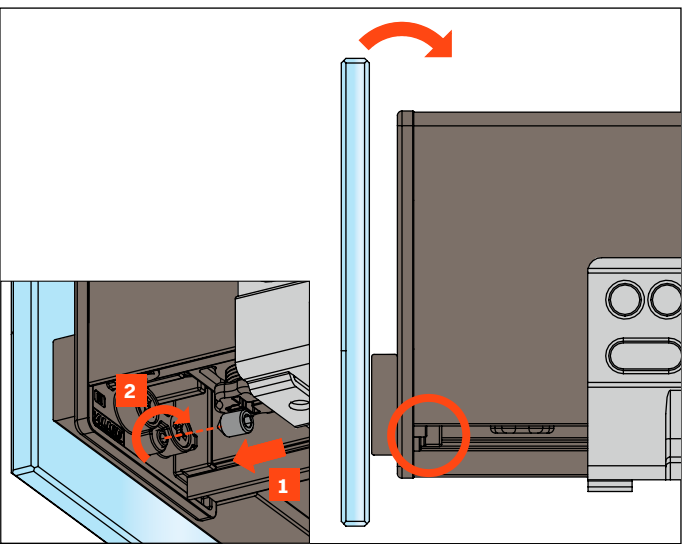

4. Insert the caps in both sides

5. Fix the frontal to the drawer

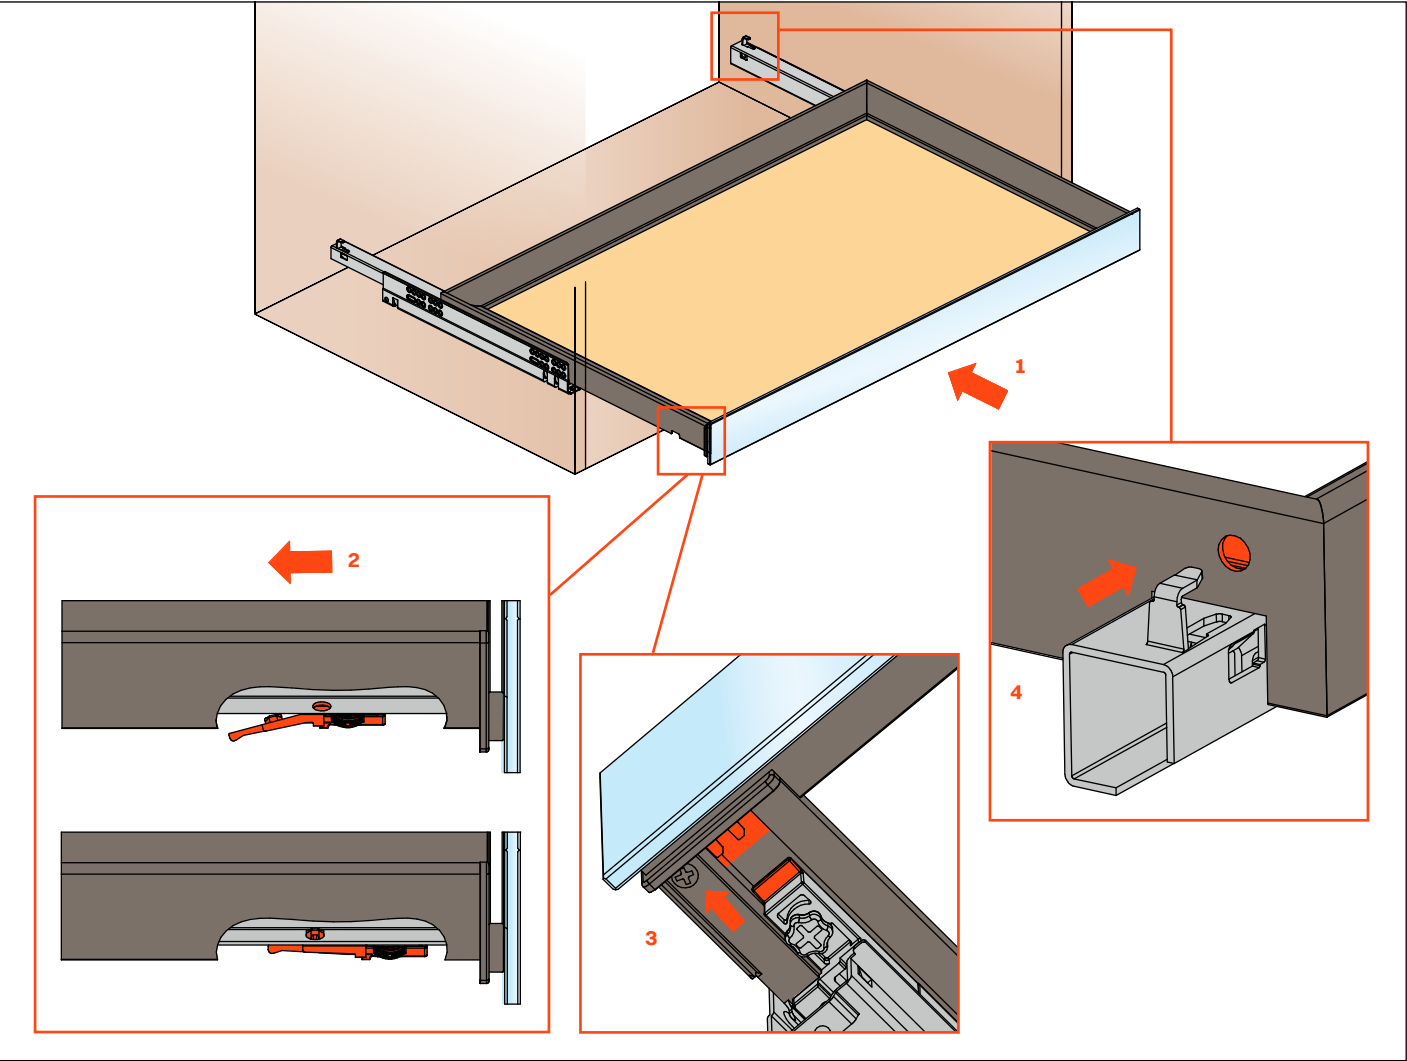

6. Insert the grub screw and rotate it to adjust the frontal

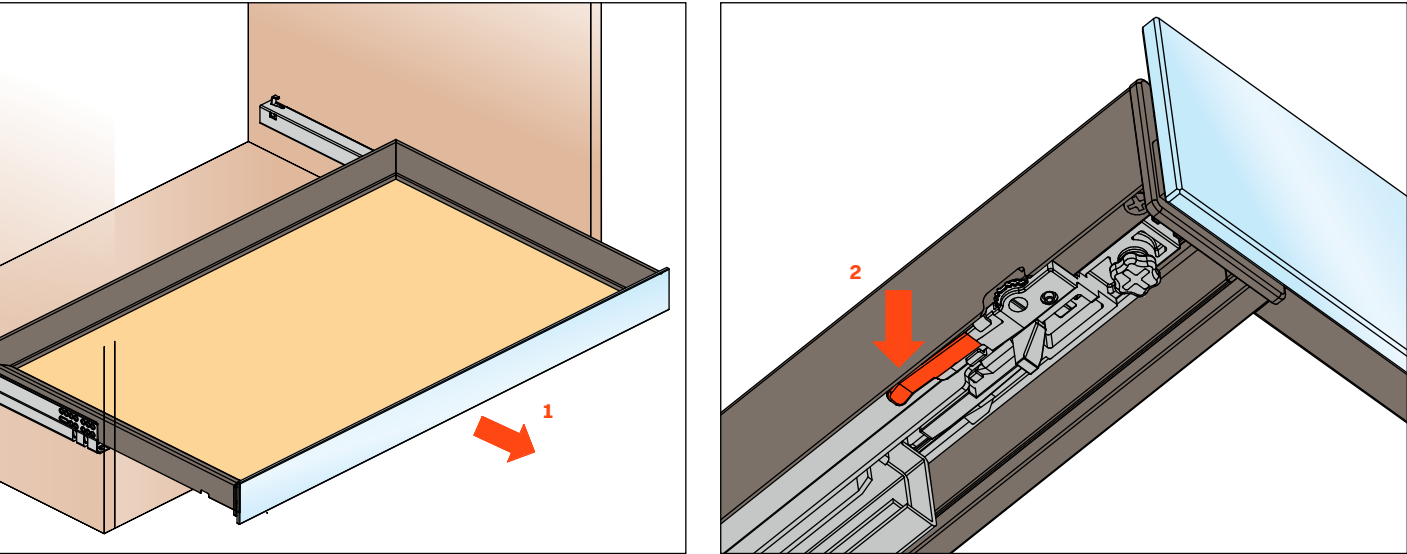

Mounting the drawer onto the runners

- 1. Place the drawer on the runners and close it
- 2. The flexibility of the fixing system enables the clips to engage
- 3. Engage the locking pin to prevent the overturning of the drawer
- 4. Locate the rear hooks

Disassembly of the drawer

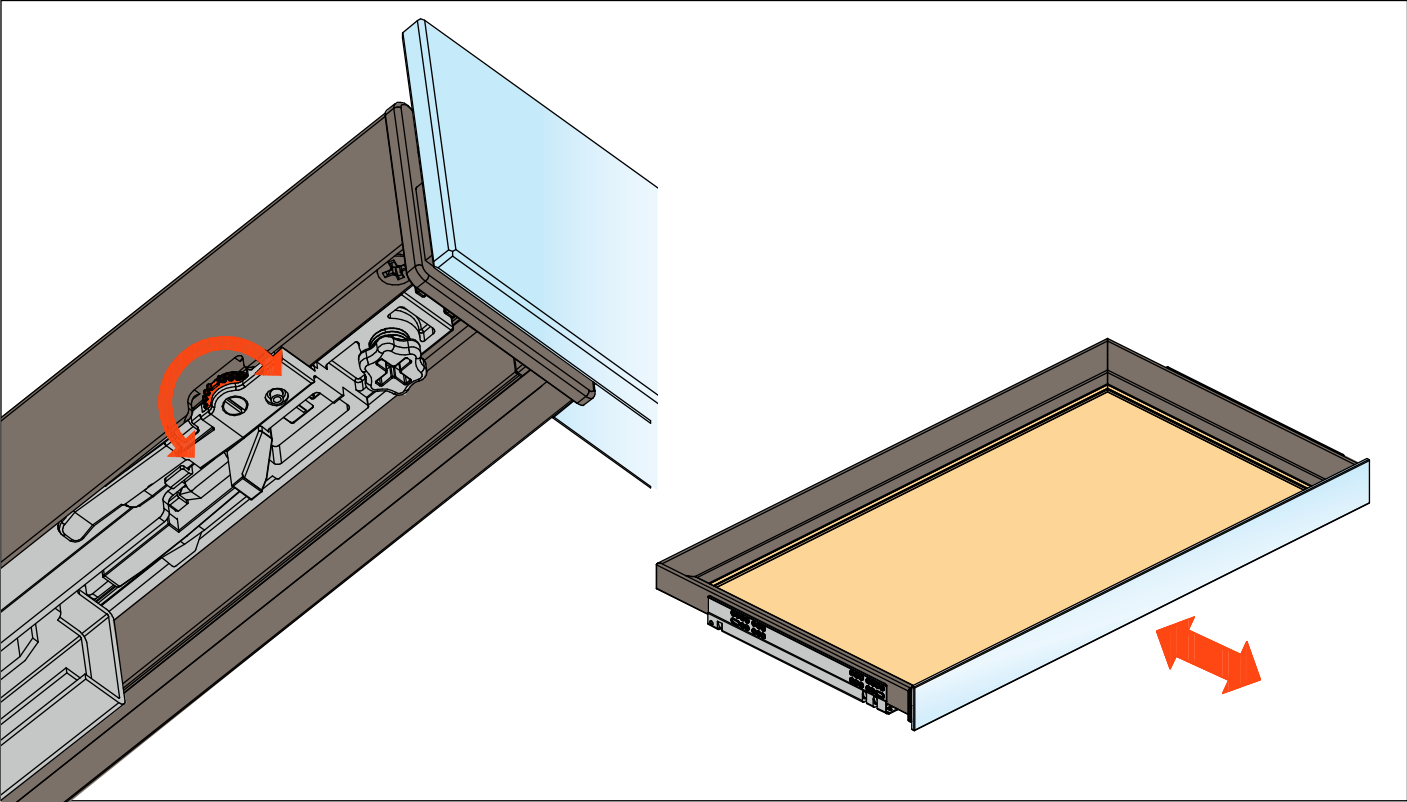

- 1. Open the drawer
- 2. Press down the lever indicated here below and pull out the drawer

Adjustments

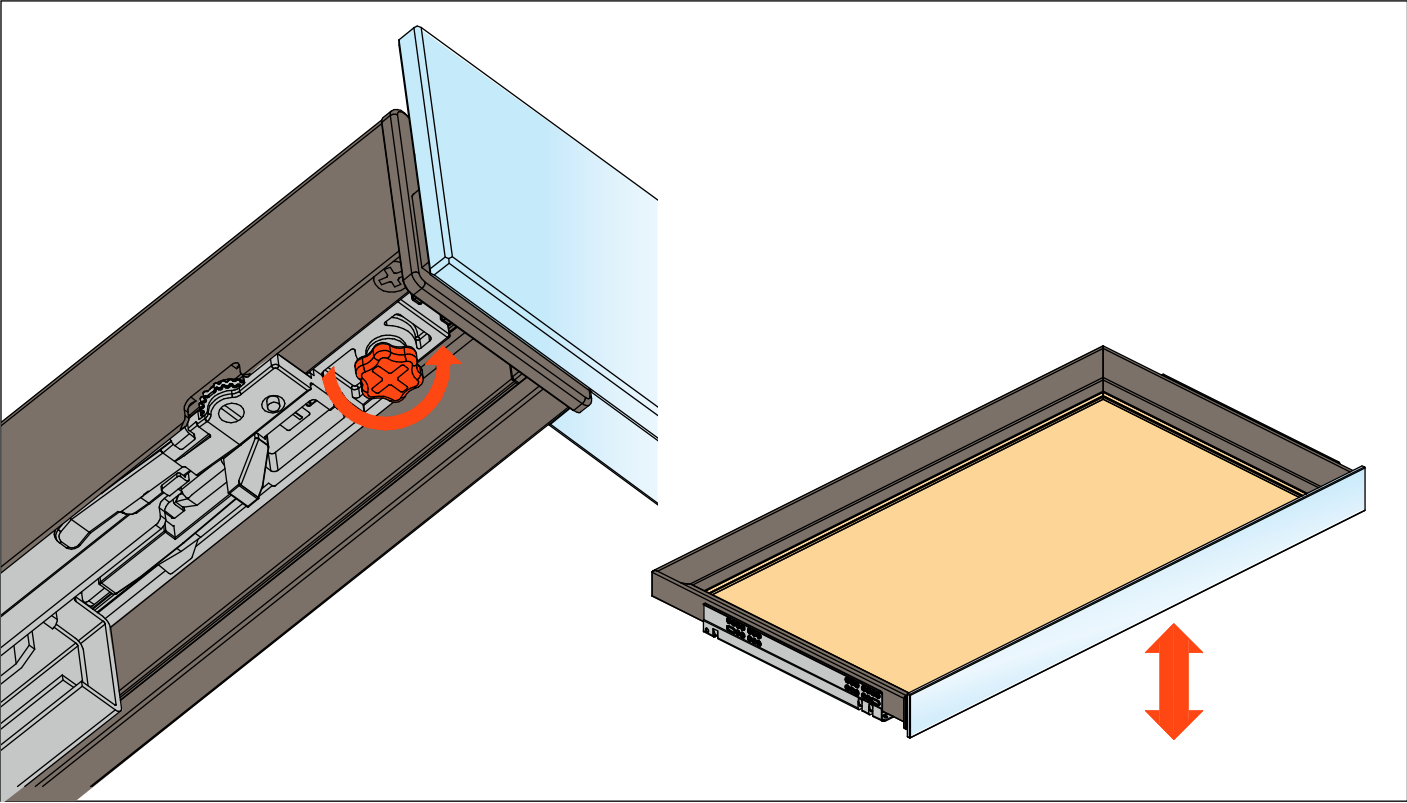

Depth adjustment +2 -2 mm

Rotate the wheel towards the front of the drawer to move the drawer forward.  
Rotate the wheel towards the back of the drawer to move the drawer backward.  
This operation is tool free.

Height adjustment + 5 mm

Rotate the lever towards the front of the drawer for the height adjustment.  
This operation is tool free.

Fixing the profile to the frontal

Guidelines to fix spacers

**FIXING 4-SIDED DRAWERS**  
It is recommended that the runners are fixed to the cabinet using the upper holes

**FIXING 3-SIDED DRAWERS**  
It is recommended that the runners are fixed to the cabinet using the lower holes

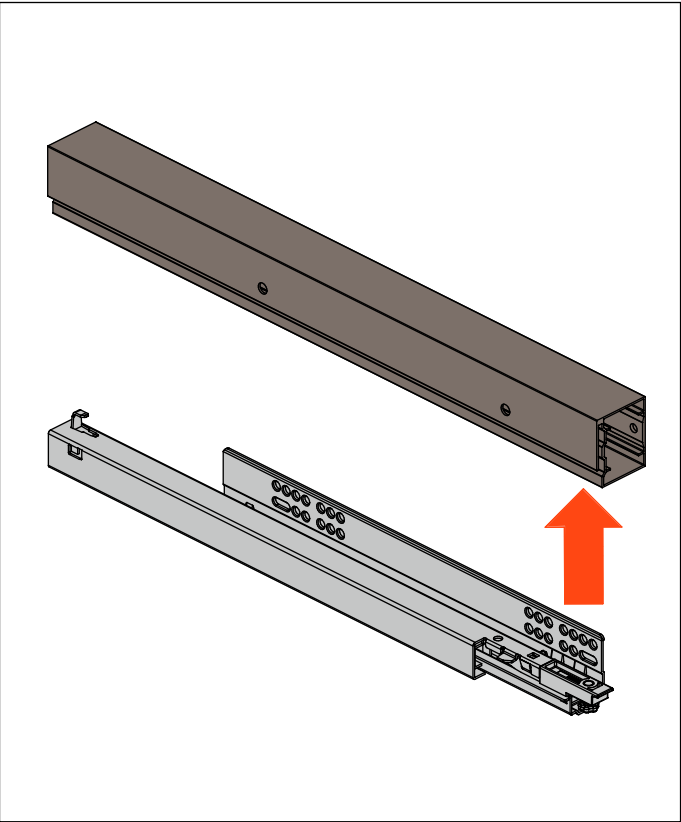

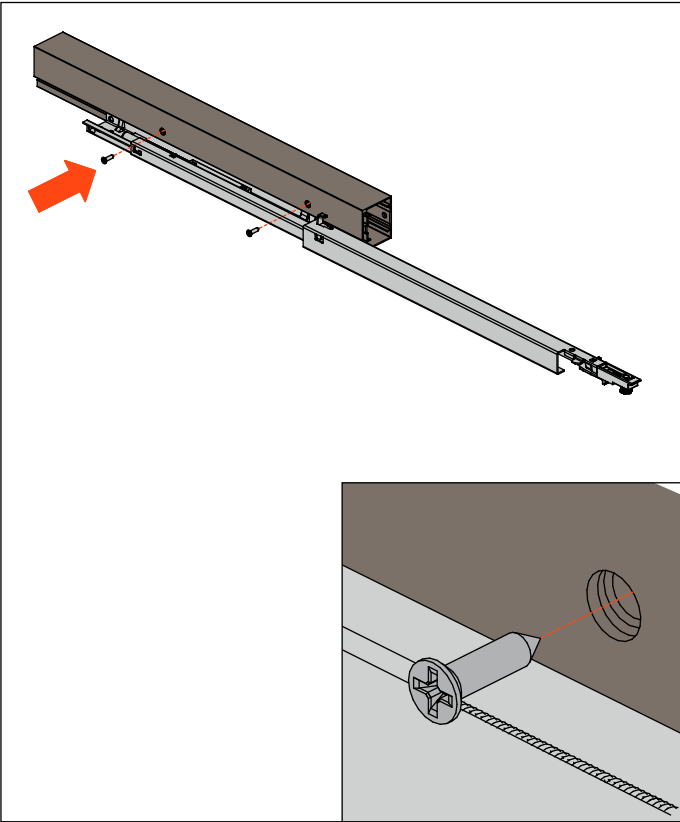

Excessories  
Pull-out - spacers - assembly instructions

The spacers enable the drawer to be fully opened without impedance from hinged or sliding doors.  
They feature an innovative quick-fixing device which ensures that the runners are correctly and accurately installed.

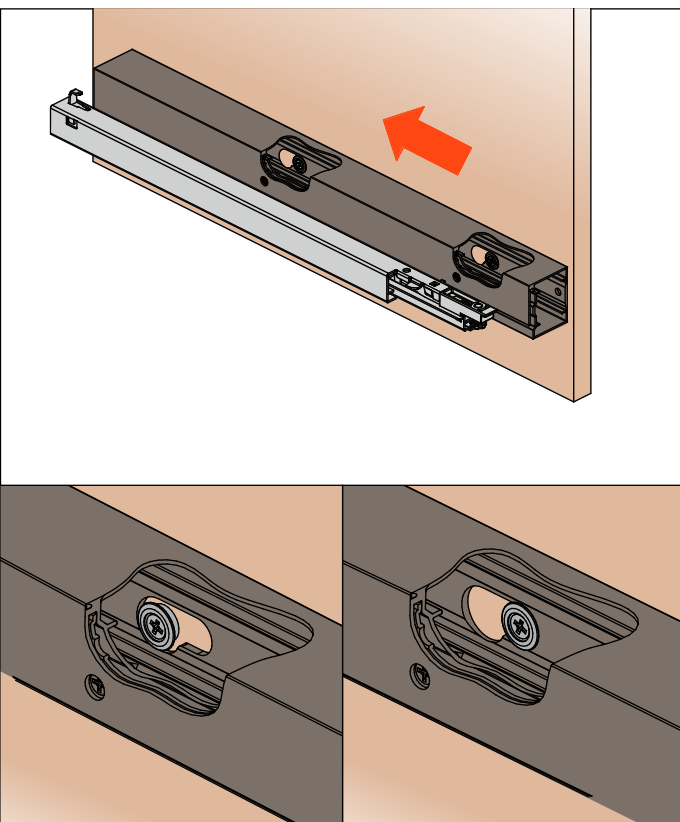

1. Insert the runner into the spacer

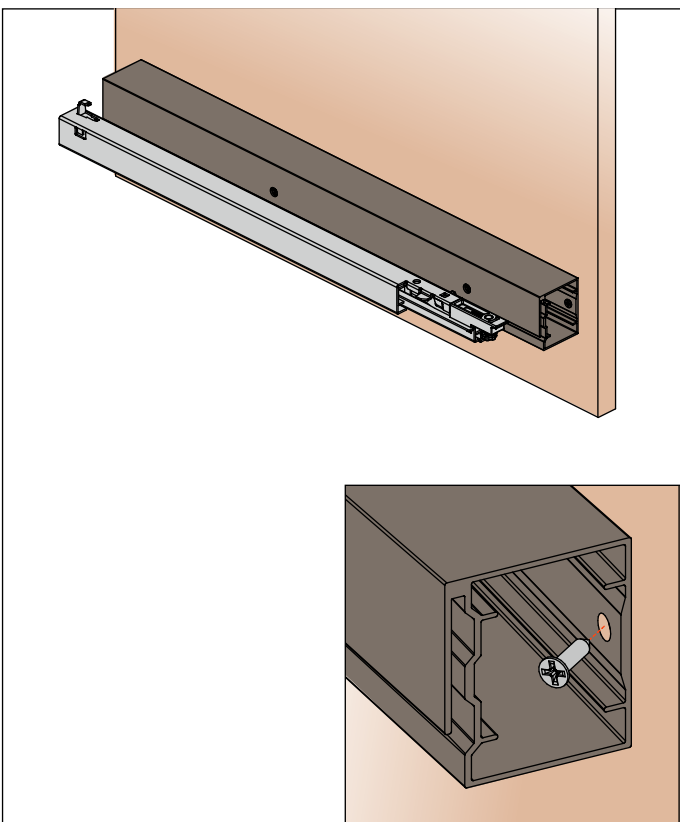

2. Fix the runner to the spacer

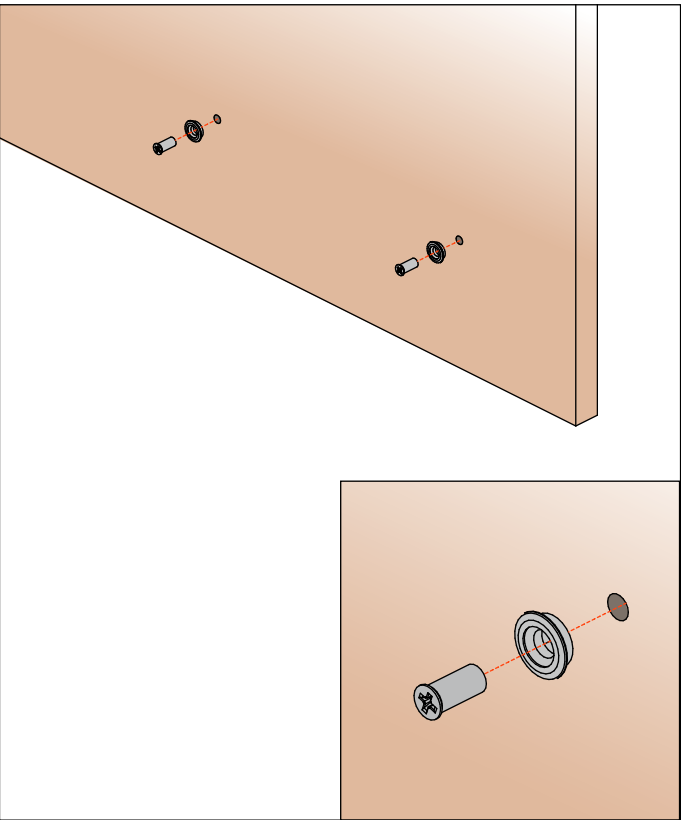

5. Slide the runner to locate it to the support

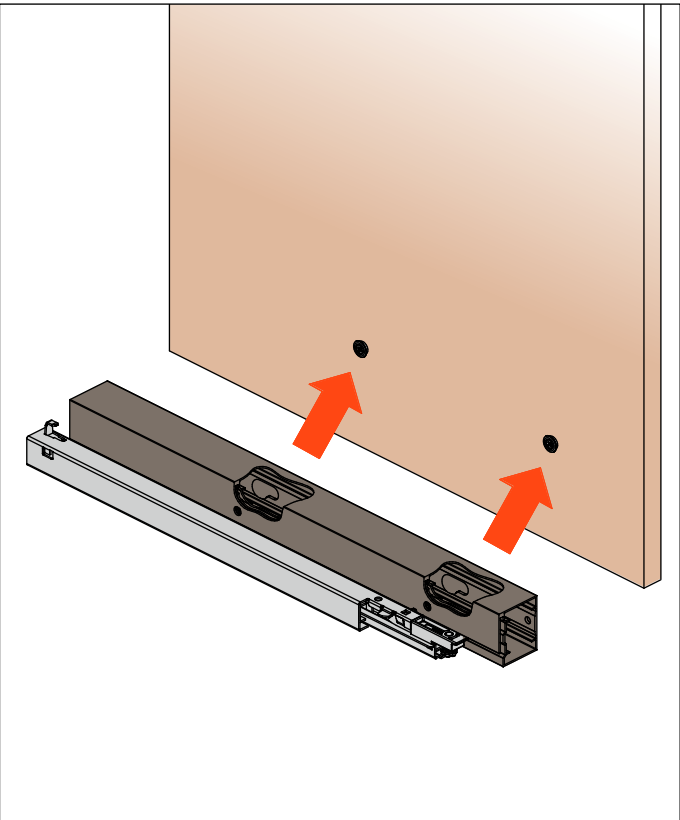

6. Secure the spacer in position using the front fixing screw

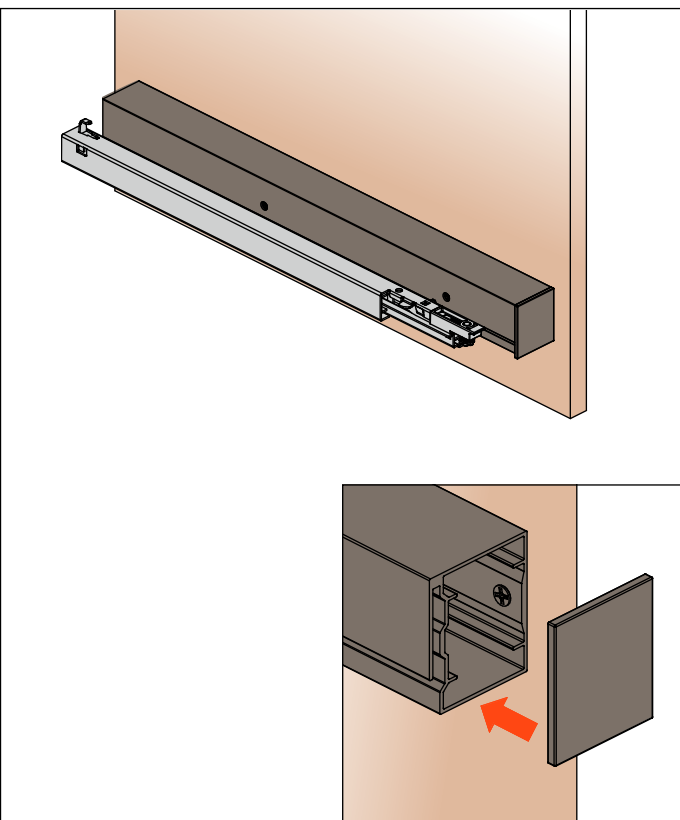

3. Screw-fix the spacer supports to the cabinet side

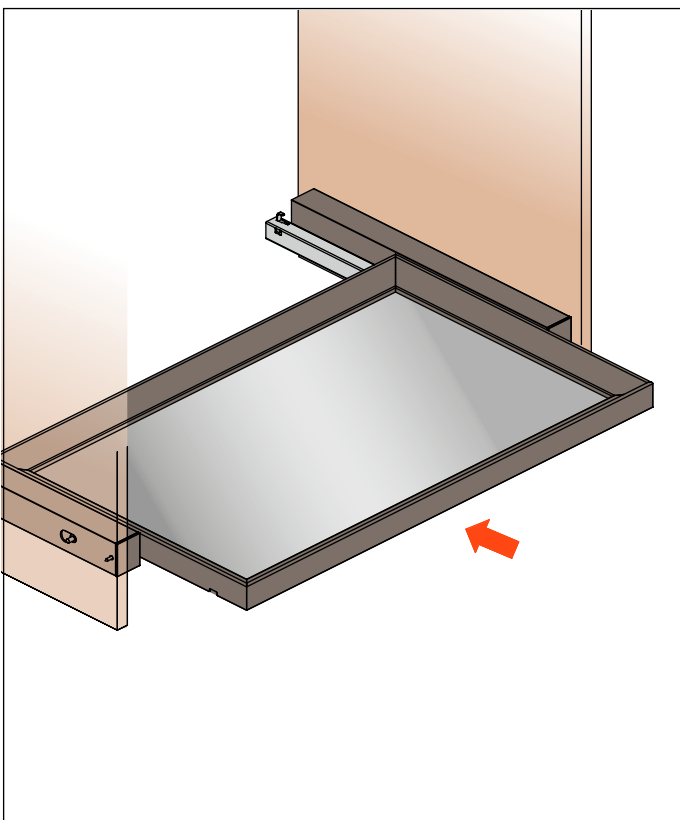

4. Position the spacer onto the supports

7. Insert the end caps

8. Install the drawer onto the runners
