Slider M35 - M50

M35 and **M50** are coplanar systems for full-height cabinets with doors weighing up to 35 and 50 kg respectively.
Thanks to the exclusive patented design of the Slider series, sliding is intuitive, smooth and silent. **M35**, has a lower track designed to allow the use of standard kitchen cabinet legs.
M50 is characterised by its versatility: suitable for many types of setting, it can be used with doors 33 or 17 mm above the ground.

M35 is intended especially to be used in the kitchen, while **M50** is ideal for wardrobes and storage cabinets in offices and shops.

Slider M35 - How to order

Customised systems

Slider M35 can be supplied in customised lengths i.e. designed for installation on cabinets with internal width (**LI**) equal to the length of the slider rail (**CP**).
Attention: clients can determine the extent to which the door will open based on variable **RAA** (distance between the central panel and edge of the door).

LI = LT – 2*S
CP = LI – 1 mm
